## Narratives

### Areas of Greatest Need:

Hamilton County, Ohio is made up of 48 cities, villages, and townships outside the central city of Cincinnati. Of these 48 communities, 40 participate in the County's Entitlement CDBG Program. All of this area has been impacted by the foreclosure crisis, but some areas have been impacted more severely than others. In determining what data would be helpful to determine the areas of greatest need, staff from the Departments of Community Development, Regional Planning, and County Commissioners reviewed information from the Clerk of Courts and Auditor's office regarding foreclosure filings and completed foreclosures, studies completed by Working in Neighborhoods (a non-profit developer and counseling agency), and data provided by HUD, including USPS vacancy rates, Low/Mod/Middle income data, Estimated Foreclosure abandonment risk score, HMDA high cost loan rates, and predicted 18 month underlying problem foreclosure rate. This data was examined at the community level, broken down by census tract and block group. Further information regarding the final areas of greatest need is described below. To identify communities to be targeted with NSP funds, we began by examining a previously published report on Hamilton County's foreclosure problem. The statistics in this report indicated that there were natural breaks in the data when attempting to identify communities most severely impacted. In other words, it seemed readily apparent which communities were most affected. To further validate this observation we examined the Hamilton County Clerk of Court's records for foreclosures completed during the period from 1/1/2006 to approximately 10/15/08. Total foreclosures were calculated for each of our participating communities and were then divided by the total number of housing units in that community. The resulting "Foreclosures as a Percentage of Housing Units" allowed us to rank communities on this basis. Total foreclosures in community 2006-2008 = Foreclosures as % of Housing Units Total housing units in community A baseline of >2% was set as the minimum required in order to receive further consideration for targeting. Communities meeting the >2% minimum were then compared using foreclosure data provided by HUD. To be further considered for targeting, communities had to meet the following parameters: • "Estimated foreclosure abandonment risk score" of 8 or above in a minimum of 50% of block groups; • Community average for "Predicted 18 month underlying problem foreclosure rate" of 6% or more; • Minimum of 50% of block groups classified as "low/moderate middle income eligible". After tabulating these measurements a list of approximately 20 communities remained that were potentially eligible for targeting. At this point a decision was made to eliminate from consideration any community with less than 1,000 housing units. Although these communities had relatively high foreclosure rates, the actual number of foreclosures was minimal when compared to larger jurisdictions. A portion of our NSP funding has been reserved for such areas, i.e., small pockets where foreclosure is a problem, yet not large enough to justify designation as a targeted area. In the end, a total of 15 jurisdictions within Hamilton County qualified for targeting.

### Distribution and Uses of Funds:

As described in the section above, the data used to analyze the areas of greatest need in Hamilton County consisted of the following: (1) numbers and % of completed foreclosures from 2006, 2007, and 2008 through 10/15/08, obtained from the Clerk of Courts office, (2) data supplied from HUD indicating the percentage of loans in each block group that were classified as a high cost loan per HMDA, (3) the HUD supplied "Estimated Foreclosure Abandonment Risk Score", (4) the HUD supplied "Predicted 18 month underlying problem foreclosure rate", (5) the HUD supplied "USPS residential vacancy rate", and (6) the HUD supplied data indicating the numbers of households, by census tract and block group, below 120% of median income. The first 3 points of data address the required areas of the statute, where the greatest percentage of home foreclosures, the highest percentage of homes financed by a subprime mortgage related loan, and identified as likely to face a significant rise in the rate of home foreclosures, be used in the targeting. In determining the uses of the funds, the Department of Community Development and the Board of County Commissioners arranged several meetings with the communities identified as targeted, to educate them about the NSP program and eligible uses, and to receive input regarding the needs of the communities. Using a survey instrument, information was collected to identify the most common types of projects that would be needed by these communities, and approximate total funding needs for each activity. In determining distribution of the funds, the number of foreclosures,

using 2006, 2007, and 2008 data through 10/15/08, was ranked by targeted community, and funds were allocated by means of a funding cap, in that order. A decision was made to allocate the funds to different projects, and then to impose a cap by community, to access these funds. Communities that will access funds for projects that create program income will then be able to access more funding in the future by having the program income replenish the funds in their allocation cap. The charts identified below demonstrate the allocations for different projects and the funding caps by targeted community. Discussions among staff led to the belief that using these funds to be targeted to one community and project would have the most impact. At the same time, there was a proposed redevelopment of housing in Lincoln Heights (one of the targeted communities, and also one of the lowest income communities in Hamilton County), that had been awarded Low Income Housing Tax Credits by the state of Ohio. However, this project still had a gap in development funding of over 2 Million dollars. This project consists of older dilapidated housing, of which approximately 1/3 of the units are vacant and abandoned, and in need of demolition. Tax liens have been filed against the property, as taxes have gone unpaid. Although the property is not currently in foreclosure, the foreclosure will be initiated if that is the only requirement left for eligibility of the NSP funds. Funds set aside for this project will be used for both demolition of the blighted buildings, and redevelopment of new housing to be occupied by households at or below 50% of median income.

## Overall Progress Narrative:

There are a few accomplishments to mention for project number NSP-2, Acquisition for Rehabilitation. During the quarter, construction was completed on 3738 St. Martin's in Cheviot. The property will be listed for sale in January. An additional property located at 1702 Sundale in North College Hill has begun rehabilitation. To date, 24 houses have been rehabbed, 23 have been sold, and 1 is in progress. Additional properties will be added under this project as program income is generated.

Project number NSP-3, Demolition of Residential and Commercial Properties, is nearing completion. During the quarter, five properties were demolished. Four were located in Forest Park: 774 Chipley, 11681 Elkwood, 11706 Elkwood and 512 Bessinger. One property was located in Lincoln Heights: 1101 Lindale. To date, 118 properties have been demolished under this activity and 2 are currently in progress, for a total of 120 properties being addressed under this project. Many of the properties being demolished are condemned structures and pose a danger to public health or safety or they are demolished in concert with a coordinated program of rehab and/or redevelopment and/or other demolition activities within a target area and qualify in this manner as LMMA. In some situations the following end uses have been developed: community gardens, expansion of existing public parks, floodplain protection areas or the vacant lots have been donated to income-eligible adjoining property homeowners. There are a few updates to mention for project number NSP-4, Acquisition for Redevelopment. Discussion continued regarding the best eligible end use for The properties located at 823 and 845 Van Buren in Lincoln Heights. This project will address a total of 43 properties (39 completed, 4 in progress) and will provide a direct benefit to 4 income-eligible households; the remainder will provide an area benefit to their respective communities either through demolition or another eligible end use.

Lastly, the County met the 100% expenditure requirement in December for its NSP1 program and continues to spend program income that has been generated.

Activities reported as completed on previous QPRs were not updated as part of this report. The following activities were updated: 2/9, 2/11, 3/23, 4/14 and 6/1.
